

The Air1 Radio Network is a wonderful station I love to listen to. There are times when I am feeling down, upset, frustrated, etc. and I turn the radio on to Air1 and I'm completely comforted by the wonderful music! I don't have to worry about listening to any bad language or other similar issues.

I know that if Air1 were to be removed from the airwaves, there would be many frustrated people in my community. I know of several people that love to listen to the station.

Please DO NOT remove Air1 Radio Network from the air. There are so many stations out there right now that claim to be "Family Radio Stations" yet they play disturbing music and use fowl language. The world is already being corrupted at a rapid rate including the air waves. Please don't take away something that is TRULY safe for the family to listen to!
